PENDANT SYSTEM INFORMATION

Bespoke Pendant Systems

You can order a bespoke pendant system as long as your order abides by the following constraints:

Round surface mount	20kgs (44.09 lbs)
Linear surface mount	20kgs (44.09 lbs)
Mega surface mount	52kgs (115 lbs)

Round and Linear Surface Mount

Made from laser cut steel and vacuum formed plastic, the Pendant System is a mechanically engineered complete lighting solution for suspending multiple Tom Dixon lighting configurations and conceals unsightly wiring.

Maximum quantity of pendants per ceiling surface mount: 6

Mega

The Mega ceiling surface mount is made from an aluminium plate with a raw, industrial style finish, offering up to 215 hole positions. Each style can be customised by simply drilling a hole in the desired position.

Maximum quantity of pendants per ceiling surface mount: 19

Installation

To assist with installation, the surface mounts have etched hole markings with easy to follow co-ordinates, allowing for a flexible positioning of pendants within a cluster.

Detailed plans of the configurations and co-ordinates for multiple product clusters are available to download directly from the Tom Dixon website. In addition, all of our surface mounts can be primed and painted to compliment any interior environment.

TOM DIXON BOUCLE

This selection of boucle fabrics was chosen for its soft, voluminous and elegant characteristics. Boucle combines polyester and polyacrylic yarns, which have been twisted and spun to create a beautiful upholstery fabric. Made first by creating loose loops around a core yarn, bouclé yarns are a popular choice in furniture fabrics, as they are suitable for loose covers and easily upholstered on tight fitted models. The texture of boucle is formed by the varying size of loops, from large and loose curls to small and tight circlets.

AUTUMN

Autumn is an upholstery textile woven from 100% recycled polyester. It comes in a nuanced colour palette designed by Teruhiro Yanagihara, inspired by the transient nature of the 'ageing season'.

The textile is constructed with a recycled polyester yarn made from used plastic bottles and woven in a layered double-beam weave. This composition gives Autumn a soft, natural hand and allows it to be continuously recycled with no degradation in quality.

A dark, unicoloured background is used across Autumn's colour palette, and offers a rich contrast to the melange top layer, which features yarns created from a mix of two fibre-dyed colours. The scale comprises a selection of neutrals including a white melange, papery beige notes and greys, and characterful reds, blues, and oranges, alongside a lively black shade.

Teruhiro Yanagihara: "I chose a soft gradation of colours to represent the richness of ageing. I felt that although the textile is made of 100% recycled polyester, it expresses the sensitivity and transience in nature and a sense of natural fibres."

Autumn is suitable for a wide range of commercial and residential applications.

HALLINGDAL 65

NANNA DITZEL

Kvadrat's first textile Hallingdal has become the archetype of woollen textiles. The very durable upholstery fabric was originally designed in 1965 by Nanna Ditzel who is known as one of Denmark's great designers. Hallingdal 65 is made of wool and viscose: the wool provides excellent durability and flexibility, whilst the viscose adds brilliance and depth to the colour. Both materials are dyed before they are spun, which highlights the rich texture of the fabric. The versatile palette includes neutral and strong, primary colours. Some colourways are unicoloured, others are constructed from 2 different unicoloured yarns, and the rest are created using unicoloured yarns in combination with melange yarns. Hallingdal has been continually produced by Kvadrat since the company was established and it remains one of the best selling textiles of the Kvadrat collection.

PATRICIA URQUIOLA

Unicoloured Hero 2 is a full-bodied upholstery textile designed by Patricia Urquiola. A new iteration of Hero, it is characterised by its soft texture and exceptional colour richness, and comes in a sporty new palette comprising over 30 nuances.

Hero 2 exemplifies Kvadrat's commitment to Conscious Design Principles. It is primarily woven from wool, a renewable resource, and is re-engineered to contain recycled nylon instead of virgin nylon. Consequently, it is suitable for recycling.

The expansive new palette for Hero 2 showcases Patricia Urquiola's singular approach to colour design. It comprises a dynamic scale of subtle yet vibrant hues inspired by nature that explore tonal associations, including a series of non-traditional interpretations of red.

Divina Melange 3 is a vibrant piece-dyed woollen upholstery textile reminiscent of felt. Cheerfully simple, it comes in a fresh, versatile palette by artist and designer Finn Sködt.

Compact, comfortable and extremely smooth, Divina Melange 3 expresses colours and the shape of furniture particularly well. It is constructed by weaving the yarn in a simple binding after which it is subjected to pressure and high temperatures. This milling process, which is often associated with fine tailoring, transforms the material from coarse to a soft and uniform, felt-like surface.

Produced by piece-dyeing a dark or light grey melange, the textile's colour palette perfectly reflects Finn Sködt's pure aesthetic. The new colour scale combines signature nuances, such as hot pink, forest green and Finn Sködt's favourite ultramarine, together with chalky notes and neutral shades. These are meticulously picked from the designer's extensive colour library of hand-painted samples, documenting the colours that he has used in his paintings for decades.

Unlike previous editions of Divina Melange, the new colourways go beyond pairs of light and dark versions of the same colour. Instead, they combine pairs of complimentary yet different tones to deliver a greater degree of diversity.

Divina Melange 3 is versatile and hard-wearing. Consequently, it is suitable for both public and private spaces alike.

MELANGE NAP

AKIRA MINAGAWA

Melange Nap is a woollen upholstery textile characterised by exceptional depth of colour and surprising details. Designed by Akira Minagawa, it offers a distinctively unique melange expression.

Extremely soft yet durable, Melange Nap appears to be brushed. It is constructed with a unicoloured and a melange yarn, which creates a graphic pattern of tiny dots that play across its surface.

The volume of details that emerges from the surface of Melange Nap depends on the contrast between the yarns. Some of the darker colourways almost appear unicoloured whereas others have an intriguing multi-coloured look.

Akira Minagawa: 'Melange Nap transforms an interior into 'scenery' within its space. The colour compositions are inspired by six elements from the natural world: Forest, Sun, Ocean, Minerals, Earth, and Dune. Each expression of the textile harmonises with its surroundings in an individual way, while creating a sense of the peace that comes from nature.'

Suitable for public and private spaces, Melange Nap comes in a number of colours derived from upholstery textile Forest Nap, also designed by Akira Minagawa. Consequently, they combine particularly well.

SAHCO

A curled bouclé fabric, Elle drapes and curves around furniture like an elegant designer coat. The spun bouclé yarn created by blending wool, viscose and acrylic gives the surface a soft tactility. During the subsequent dyeing the yarns take the colour differently, creating captivating shifts within the same tones. This effect and a slight sheen from the acrylic blend bring life to the voluminous textured bouclé surface. Elegant neutrals range from oyster, coffee, pearl white, light ivory and caramel to cactus green, concrete grey, nutmeg, mud brown and ink. Taking cues from fashion, brighter contrast colours are sunset orange, rust, plum and aqua.

GENTLE 2

FEBRIK

Gentle 2 is the only knitted stretch velvet upholstery textile on the market. Designed by Febrik, it comes in a refreshed colour scale and combines an inviting presence with a sumptuous, soft pile.

The textile is constructed by knitting loops through a base layer and subsequently shearing the surface. Thanks to a subtly striated surface which derives from the naturally irregular thicknesses of the woollen yarns, Gentle 2 features a rich surface with an elegant shine.

Gentle 2 has a particularly opulent feel as it is laminated onto a 2mm thick base foam. This ensures the textile stands out with a voluminous expression that sets it apart from traditional woven velvets.

The updated colour palette neatly compliments Gentle 2's soft, comfortable expression. It comprises light pastels and clear bright hues, such as lavender, cream, tangerine and electric blue.

Suitable for public and private spaces, Gentle 2 offers excellent stretchability due to its knitted construction. Consequently, it clings to curves in a particularly elegant way and is ideal for upholstering organic shapes, as well as any other form.

- 1.1 This price list is valid from 1 June 2025 and supersedes all previous lists.
- 1.2 Prices are provided for indicative purposes only, and are based on economic conditions and the best knowledge of the Company at the time of publication. The Company reserves the right to change list prices at any time and on any product without prior notification.

2 WARRANTIES

- 2.1 This Contract constitutes the entire agreement between the Company and its customers (the Customer) for the sale of Goods. The Customer acknowledges that it has not relied on any statement, promise, representation, assurance or warranty made or given by or on behalf of the Company which is not set out in the Contract.
- 2.2 Any samples, drawings, descriptive matter, or advertising produced by the Company and any descriptions or illustrations contained in the Company's catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods described or depicted in them. They shall not form part of the Contract or have any contractual force.
- 2.3 The Customer shall be responsible for inspecting Goods upon delivery and it is a condition of the Contract that any shortage or defect in Goods at delivery is notified to the Company in writing together with photographic proof within 5 Working Days from the receipt of Goods.
- 2.4 A three-year limited warranty against manufacturing defects is offered on all furniture and lighting Goods (materials and construction). A one-year limited warranty against manufacturing defects is offered on all other Goods. Normal wear on fabrics and finish, as well as indirect damage to persons or articles is not covered by this warranty. Where a defect has been notified, the Customer will, if so requested by the Company, return the Goods to the Company at the Customer's expense. If the Company subsequently confirms that the returned Goods contain defects attributable to the Company, the reasonable costs of re-delivery incurred by the Customer will be refunded.
- 2.5 The warranties given above will not apply to defects that are due to fair wear and tear, accidental damage or failure by the Customer or any third party to adhere to the Company's instructions or written recommendations.
- 2.6 Any modifications made to the product by the Customer will void the warranty.

3 INSTALLATION

- 3.1 All the company's lights are for indoor use only unless otherwise specified. They should be installed by a qualified electrician. Installation must be carried out in accordance and compliance with current building regulations.
- 3.2 Because of the variety of different ceiling types and construction the Company cannot advise on fixings. The Customer should check the type of ceiling construction they have and use appropriate fixings that are suitable for the weight of the light being installed.
- 3.3 Please note replacement bulbs should be in accordance with recommendations in the product instructions.

- 4.2 Quotations provided by the Company shall be valid for 30 days only. Any purchase orders placed before a change to the price list is published must be collected or delivered in full within 15 days of the order failing which the order will be cancelled.
